PROFESSIONAL SUMMARY

Software Engineer with experience in frontend and full stack development using React.js, Next.js, TypeScript, and Node.js. Builds responsive interfaces and RESTful APIs, contributes to PostgreSQL-backed applications, and integrates AI services. Delivered content management systems and enterprise portals, with application load-time improvements of over 20%.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript, TypeScript, Redux Toolkit, HTML5, CSS3

Backend and data: Node.js, RESTful APIs, PostgreSQL, backend service integration

UI and accessibility: Tailwind CSS, Chakra UI, Figma implementation, responsive design, semantic HTML, ARIA, keyboard navigation, WCAG guidelines

Performance and testing: Code splitting, lazy loading, memoization, Jest, React Testing Library, cross-browser compatibility

Tools and integrations: Docker, Git, GitHub, OpenAI API, Claude API, Gemini API

PROFESSIONAL EXPERIENCE

Software Engineer | Baliza.io

July 2022 - Present

- Built React and Next.js applications from the ground up, including a custom content management system (CMS) with video playback and an enterprise portal integrated with Google Maps.
- Designed and integrated RESTful APIs and backend services using Node.js; contributed to data handling and scalability in PostgreSQL-backed applications.
- Integrated OpenAI, Claude, and Gemini APIs to automate content management workflows; implemented Docker-based development and deployment workflows.
- Reduced application load times by over 20% and improved responsiveness; optimized rendering with React.memo, useCallback, and Redux selectors, and implemented lazy loading and code splitting.
- Translated Figma designs into responsive interfaces using TypeScript, Chakra UI, and Tailwind CSS; built reusable components and reviewed code for maintainability.
- Improved accessibility with semantic HTML, keyboard navigation, and ARIA attributes aligned with WCAG guidelines; supported Chrome, Firefox, Safari, and Edge.
- Wrote unit and component tests with Jest and React Testing Library to validate UI behavior and prevent regressions.

Associate Software Developer | Codepilot Technologies Private Limited

February 2020 - January 2021

- Maintained and extended React applications, adding features and improving usability based on client business requirements.

Web Development Trainee | Java Training And Placement Center (JTPC)

April 2019 - October 2019

- Trained in HTML5, CSS3, JavaScript, and React; participated in code reviews and collaborative web development workflows.

EDUCATION

Bachelor of Business Administration (BBA) | Dibrugarh University, Dibrugarh

DCA | Tech Booster
